

Abbotsford, Sumas and Matsqui News

Seventh Year. No. 8.

WEDNESDAY, FEBRUARY 20, 1929

BIG PROGRAM OF ROAD WORK TO START HERE NEXT WEEK

The extensive road work program planned for this district by the government starts next week so we are informed, extending east and west from Abbotsford. A practically straight road is surveyed from Abbotsford to Clearbrook road, the ravine opposite Jubilee hall to be traversed over a concrete culvert and earth fill. Paving is to be executed through the village early next year.

E. B. McPhail, Clerk of Sumas Municipality, has received blue prints of the new section of the Interprovincial highway from Delair to the pumping station. The distance is given as 9.7 miles. Graveling of the graded section, and other improvements to this strip of highway commence as soon as the frost leaves the ground.

EXONERATED BY JURY

At the inquest of C. A. Stewart, conducted by Coroner Eretz at Mission on Monday, Fred Steves, driver of the Ford roadster which overturned at the Mission bridge approach last Saturday night, causing the death of the Abbotsford school principal, was exonerated from all blame by the jury. Evidence was brought out to show that no barrier halted traffic into the open ferry slip, and the fog at that place at the time contributed largely to the accident. It was shown that three serious accidents had previously occurred at

the same spot, and several cars had driven out on to the slip, but had been checked in time to avoid disaster. The jury added a rider calling upon the provincial government to post signs and otherwise make the approach safer.

Mrs. West and her daughter, Mrs. Robinson have been brought to the M.S.A. hospital from Mission on Monday, and are now at home recovering.

The deceased man's father, Inspector Stewart of the education department, Victoria, conveyed the body to Victoria for burial, the funeral taking place today. Mr. Stewart was a native son of Vancouver and 35 years of age. He is survived by his wife, and was married one year ago last October.

News of the sad tragedy has cast a gloom over the whole community. Principal Stewart having become a popular figure in Abbotsford since he came here 18 months ago. Sincere sympathy is extended to the widow and parents.

INVITE F.V.M.P.A. TO HOLD 1930 ANNUAL MEETING HERE

Abbotsford Village Council, the district Board of Trade and the Jubilee Hall Association have joined in extending an invitation to the Fraser Valley Milk Producers' Association to hold their 1930 annual meeting in this part of the Valley. Free use of the big Jubilee Hall for convention purposes for the days of session is accorded, and special provisions for accommodation of the several hundred delegates is being arranged in event of acceptance.

LEE BAKERY PLANT STARTS BREAD-BAKING THIS WEEK

In keeping with other improvements, Abbotsford can now boast the most modern and adequate bakery equipment in the Fraser Valley, and on Monday of this week the first "batch" of crisp, appetizing bread came out of the Lee ovens, ready for distribution to customers. Public comment is most favorable about Lee's "better" bread, which in the new Pendrith process acquires unusual flavor and excellence.

Lee's bakery is a model of modern equipment and appointment, and is well worth a visit. Machinery executes every process, and the bread need not be handled at any stage in its making. The flour is stored in large, vermin- and moisture-proof containers with sealed covers, with a trap at the bottom, which when opened, permits the flour to pour through strainers into an enclosed mixer. Water is piped direct into the mixer from a sterilizer and tempering tank, and when mixed and raised, the dough is conveyed down an enclosed shaft into the weigher and divider in the baking room. The divider forms the dough into loaf units of uniform size and weight, in readiness for the oven, into which they are taken on a conveyor. After baking, the bread is placed in specially-built covered boxes for delivery. Electric motors drive all machinery, the plant being of Pendrith (Ontario) manufacture throughout. The oven is a Brantford continuous baker of 550-loaf capacity, and one of the most modern on the market.

Mr. Lee is preparing to inaugurate a system of direct-from-bakery-to-door delivery, and is expecting immediate arrival of a new Chevrolet truck to make such a service possible. As soon as weather permits, it is likely the Lee grocery department will be moved into one of the new stores, and the frame building wrecked or removed in preparation for a new concrete, fireproof structure. The smaller 11 new Lee stores will likely be re-opened as an ice-cream and refreshment parlor.

Girls Home Inadequate Speaker Says

A meeting of the W.M.S. was held in the Manse on Thursday, when Miss Matheson, superintendent of the Girls' Redemption Home, Burnaby, gave a vivid account of the work there. The Home is sustained by the United Church, and though at present crowded to capacity, according to Miss Matheson, only partially fills the need for such an institution in Vancouver.

The Manse was decorated in Valentine effects, and the large attendance included members of the Y.P. Society and a number from St. Matthew's congregation. Proceeds of the afternoon were \$14.25.

W. Sayce has been taking treatment in Shaughnessy military hospital.

Mr. W. Beharrell is seriously ill at his home, Ridgedale.

Tom Kerr of Clayburn is ill with 'flu, leaves the ground.

Mrs. McDermott, mother of Mrs. Kennedy, Sumas Prairie, passed away today.

Matsqui-Sumas-Abbotsford General Hospital Financial Statement For the Year Ending December 31, 1928

To the Members of the Society of the Matsqui-Sumas-Abbotsford General Hospital:

Ladies and Gentlemen:

On behalf of the Managers of the Matsqui-Sumas-Abbotsford General Hospital, I have the honor to submit for your consideration the Eighth Annual Report of your Society.

On examination of the Financial Statement, you will note that in Operating and Maintenance Account, under the heading of "Revenue" the total amount is \$13,290.17; this figure is the amount of money actually earned. The total actual expenditure was \$11,611.59, to which sum was added the sum of \$1000 as Reserve for Bad and Doubtful Debts, making a gross expenditure of \$12,611.59.

The hospital days for the year ended December 31, 1928 were 3059, or 291 less than last year, and the cost per patient day has increased from \$3.42 in 1927 to \$3.80 in 1928. Taking the years the Hospital has been in operation the costs have been as follows: 1923—\$4.62; 1924—\$4.44; 1925—\$3.45; 1926—\$3.35; 1927—\$3.42; 1928—\$3.80.

During the past year, owing to the shortage of funds, some necessary repairs to the service room were not carried out, but a very considerable expenditure on building account will have to be carried out during 1929 to bring conditions up to hospital standard. Refrigeration is required and storage space in basement provided for provisions and hospital supplies, and heating of nurses' quarters has to be carried out as soon as the weather will permit.

These expenditures, along with that required for the Service Room, will necessitate the spending on Capital Account of over \$2,500, as the borrowing of money for Capital Expenditure has to come before the Society as a whole for approval, and this matter is mentioned in the Report in order that it may be discussed at the annual meeting of the Society.

Mention has to be made of the unsatisfactory living quarters provided for members of the nursing staff. The Board has for some time past felt that unless better quarters are provided, they cannot expect to get the best out of those employed by them. During the past year the sum of \$65 was spent in providing room accommodation for the nurse on night duty owing to the fact that it was utterly impossible to sleep in the nurses' quarters during the summer months because of excessive heat. In fairness to the hospital staff the Managers would urge the early commencement of some movement to provide them with suitable quarters.

The Board of Managers desire to thank the Women's Auxiliary for their hearty support, and believe that they can confidently look to them to assist meet the heavy expenditure which has been made during the year.

The following Managers retire at the Annual Meeting: Messrs. A. McCallum, W. Coutts, J. C. Morris, Dr. J. F. Wood, and T. F. Seldon. The five retiring Managers are eligible for re-election.

R. L. McCulloch, Chairman of Board of Managers

OPERATING & MAINTENANCE Exhibit "A" ACCOUNT FOR THE YEAR ENDING DECEMBER 31st, 1928.

Annual General Meeting of Above Society, Monday, February 25 In Masonic Hall, Abbotsford at 8 p. m.

Two "gentlemen drivers" are now entered for the Eastern International Dog Sled Derby scheduled for February 21, 22, and 23. There was very little if any of commercialism connected with the event heretofore, but the entry of the gentlemen drivers who race their own dogs for the love of the sport has given the event a much wider appeal. Famous dog mushers from the north with malaters from the north will vie for honors with men whose dogs are bred for show points. The race goes to those with the greatest stamina. Run over a forty-mile course for each of three days, the derby is an endurance test for man and beast. And no whips are used. Arthur Beauvais is seen above with one of the husky types. The other picture shows practically all that a musher sees during the race.

Prize winners in the Sumas-Matsqui Cow Testing Association, announced last week, are as follows:			
Two-Year-Old Class—	Age	lbs. milk	lbs. fat
T. F. Seldon, Queenie 2nd, Holstein	2	12,924	544.7
H. F. Page, Willow, Holstein	2	12,497	430.2
Three-Year-Old-and-Over Class—			
H. Day, Meg, Ayrshire	7	13,345	586.0
H. F. Page, Betty 7th, Holstein	7	16,368	585.4
Best Average of Five—			
H. Day		11,092	473.7
L. T. Beharrell		11,488	444.8
Best Average of Three for Three Years—			
H. Day		11,385	524.3
L. T. Beharrell		13,161	463.9
High-Low Class—			
R. Macchell, Nancy, Guernsey	6	8,096	341.3
J. Robson, Sumas, Jersey	8	5,642	317.9
H. F. Page, Molly 17th, Holstein	3	8,450	278.1

No Ruling Yet Given On Commissioner's Qualification

Abbotsford Village Council met on Monday evening, setting the tax rate at 10 mills, the light rate at 2 1/2 mills, the hospital rate at 2 1/2 mills, the same as last year.

A letter was read from Yarwood & Durrant giving legal advice upon the status of M. M. Shore in the Council. The whole matter had been submitted to the Inspector of Municipalities for decision, Mr. Durrant said.

Question has been raised over Mr. Shore's qualification for office in respect to his property holdings, but the Village Municipalities Act is too embryonic in its technical construction for an average legal opinion to dispose of the point raised.

Mr. E. H. Selhorn, superintendent of the Redcliffe Brick & Coal Co., Alberta was a visitor at the Manse on Sunday.

Mrs. Dawson of Kilgard is a patient in the local hospital.

J. F. Cook has sold out considerable of his land holdings on Sumas Prairie, and is reported to hold about 60 acres at present.

Carefully-Milled Lumber and Shingles

Are an important requisite of structural workmanship, and are undoubtedly well preference. Labor cost is lower, and your buildings are more durable and permanent. For 20 years the Abbotsford mill has maintained High Quality—and does today.

WORLD HAPPENINGS BRIEFLY TOLD

The Kellogg anti-war treaty has been ratified by the Senate at Washington.

An increase of \$25,000,000 in the fund for prohibition enforcement has been approved by the U. S. appropriations committee.

Captain Hermann Koehl, pilot of the first westward trans-Atlantic airplane, Bremen, was injured at Arosa, Switzerland, when he crashed while sliding.

American "Friends of the Prince of Wales" have come forward with an anonymous gift of \$100,000 for the relief of distress in the coal fields, it was announced in London.

It is understood the salary of Sir Basil Blackett, newly appointed chairman of the merger company controlling Imperial wireless and cable communication will be \$40,000 a year.

It has been decided that the United Service Institute, a scientific and literary body composed of military, naval, air force and Royal Mounted Police officers of the capital and district, is to be organized and incorporated.

An attempt is being made to persuade a 154-year-old Turk to visit Canada as mascot of a football team according to Z. G. Bejanoff, of Constantinople. Two sons, aged 120 and 90, are assisting in the attempt to persuade him.

Searchers recovered the bodies of three Alpine climbers, who were buried by an avalanche while climbing Mount Jovec with eight other climbers. The accident occurred near the summit of the mountain, which is 8,000 feet high.

THOUSANDS OF MOTHERS USE NO OTHER MEDICINE

Baby's Own Tablets Are the Ideal Remedy For Babies and Young Children

Canadian mothers are noted for the care they give their little ones—the health of the baby is most jealously guarded and the mother is always on the lookout for a remedy which is efficient and at the same time absolutely safe. Thousands of mothers have found such a remedy in Baby's Own Tablets and many of them use nothing else for the ailments of their little ones. Among them is Mrs. Howard King, of Truro, N.S., who says:—"I can strongly recommend Baby's Own Tablets to mothers of young children as I know of nothing to equal them for little ones."

Baby's Own Tablets are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

Letter Still Being Written

Custom Followed by Gladstone Not Allowed to Die Out

The nightly letter to the King from the House of Commons, which Gladstone used to write himself when he was prime minister, is still written. It is an interesting summary sketch of the proceedings and keeps the King in constant touch with the salient features of the doings of the house. As the prime minister nowadays has to do about five times the amount of work which Gladstone did, the privilege of writing the nightly letter has been carried out in recent years by one or other of the officers of the household, who is a member of the government. At present, it is being written by F. C. Thomson, M.P., Vice-Chamberlain of the Household.

Arsenic In Canada

All the white arsenic produced in Canada is obtained by treating the arsenical silver-cobalt-nickel ores of northern Ontario. Arsenical gold concentrates are shipped from British Columbia to the United States.

An editorial typist has lost her job for sending this to a contributor: "The editor regrets that he is unable to make use of the enclosed owing to lack of space."

Opportunities Here for Britons

Bug-bear of Prairie Loneliness Does Not Exist.

The report of the Yorkshire voluntary migration committee states the delegates, who visited Canada to study labor conditions, are convinced that Canadians desire and prefer British emigrants, and "a most vigorous campaign is needed to arouse the Briton to the great opportunities awaiting him."

"Unfortunately," the report states, "despite generous schemes of assisted passage granted British nationals, they have failed to come forward in sufficient numbers to meet the ever-growing demand for labor. There appears to be a marked disinclination to seek more favorable conditions overseas."

"Meanwhile other nations without the generous facilities enjoyed by the Briton have not been slow in taking advantage of the situation. They came forward in ever-increasing numbers and while many in the distressed areas of England are enduring great privation these men of foreign stock are enjoying apparent prosperity. We are convinced a most vigorous campaign is needed to arouse the Briton to the great opportunities awaiting him."

The committee reported that a scheme of seasonal employment as an aid to emigration was enthusiastically received in Canada and the committee was convinced the majority taking advantage of this scheme would become permanent settlers.

"Prairie loneliness such as we visualized it," the report continues, "is non-existent owing to the advent of the telephone and radio and the distance from homes was found to be surprisingly small considering the vastness of the country."

"As the empire marketing board fosters trade, so should there be an organization to encourage the fluidity of labor throughout the empire," the report concludes.

Winnipeg Newspaper Union

Fashion

The Canadian Social Hygiene Council at the request of the Department of Health of Ontario is urging all of its branches in planning their health education programmes, to take cognizance of the availability or otherwise of local home nursing classes. Where such do not exist efforts are to be made by local branches to set in action educational measures to the end that local enthusiasm may result in the organization of classes. The Canadian Social Hygiene Council does not propose to actually organize these classes but merely to stimulate their formation.

Former Premier Passes

Hon. G. H. Murray, premier of Nova Scotia from 1896 to 1923, died in Montreal, after a three days' illness from pneumonia.

Home Nursing

Is Need of Young Women Trained to Take Care of the Sick.

A serious condition of affairs which has been brought forcibly to the attention of the authorities during the present influenza outbreak has been the scarcity of trained personnel to look after the sick. There are only a limited number of trained nurses available during epidemic times as the majority are busy, engaged in their ordinary occupation. Consequently when the sick population increases suddenly an immediate and unusual demand is made upon the nursing profession.

It has been felt that in order to take care of the need at such a time there should be in each community a certain number of young women who are trained in the practical side of taking care of the sick. The services of such a person are very valuable at such a time but are not limited to only epidemics as in many of the outlying districts of Canada an accident often happens when a person trained in first aid or home nursing can be of inestimable benefit to the sufferer at such a time.

The Canadian Social Hygiene Council at the request of the Department of Health of Ontario is urging all of its branches in planning their health education programmes, to take cognizance of the availability or otherwise of local home nursing classes. Where such do not exist efforts are to be made by local branches to set in action educational measures to the end that local enthusiasm may result in the organization of classes. The Canadian Social Hygiene Council does not propose to actually organize these classes but merely to stimulate their formation.

Platinum In Canada

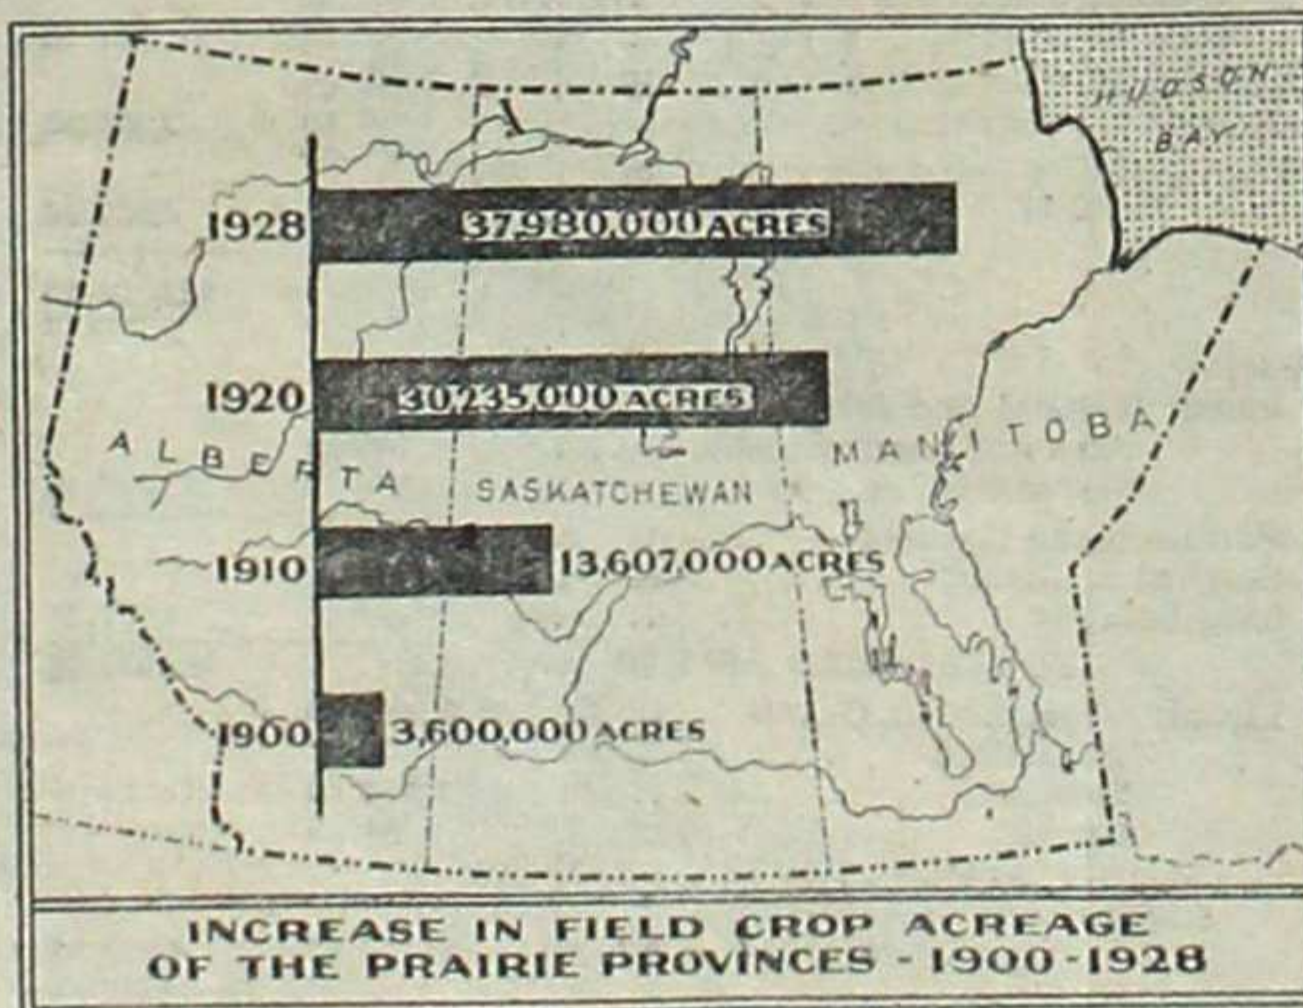

With the exception of a very few ounces of platinum obtained from the black sands of British Columbia, all the Canadian platinum and allied metals are obtained from the treatment of the Sudbury, Ontario, nickel-copper matte. The precious metal residues are allowed to accumulate over irregular periods before being treated, so that recoveries do not bear any definite relation to the quantity of matte treated in any particular year.

Saskatchewan mined 470,000 tons of coal during 1928, according to an announcement received from Ottawa. This is the same amount as was produced in 1927.

Medical men will continue to walk in Bermuda. The House of Assembly has refused to make exceptions to a law prohibiting use of cars on the island.

Honey production in the Province of Alberta in 1928 totalled about 336,000 pounds, an increase of 36,000 pounds over the output in 1927.

THE POWER OF WESTERN GROWTH

Contrasted with its spectacular speed in pre-war days, the course of prairie settlement in recent years has seemed slow and subdued. But as a matter of fact, despite the absence of sensational features, the expansion of agriculture on the prairie has been plowing ahead with tremendous power. The rate of advance, as indicated by Dominion Bureau of Statistics reports, is little short of amazing. Between 1920 and 1928, Manitoba, Saskatchewan, and

CARTER'S LITTLE PILLS

Prejudice Being Overcome

Canada-Grown Tobacco No Longer Considered of Inferior Quality

There is good reason to believe the tobacco industry in Canada will continue to grow and flourish. The prejudice formerly held against Canadian-grown leaf as of inferior quality and fit only for making cigar wrappers is rapidly disappearing. The haphazard fertilizing and cultivating methods of former days have given way to scientific cultivation and proper curing methods, as the growers have come to realize that tobacco-culture is a highly technical branch of agriculture. They are bending all their efforts to the production of the finest quality of leaf and in this endeavor they are receiving much valuable help from the research division of the Dominion Experimental Farms.

"Flu" "Flu" "Flu"

It Is Everywhere

DANGEROUS PNEUMONIA MAY FOLLOW UNLESS A GOOD RECOVERY IS MADE

With so much Grippe and Flu about, no one can afford to neglect even a simple cold. For a real protection against "Flu" many experienced nurses advocate the following simple treatment.

Put a saucer containing one pint water on the stove; then add one-half teaspoonful of Catarrhazone, and bring to a boil. Bend over the steaming water; wrap a towel over your head so that it also covers the pan. Let the steam rise so you can inhale it. Breathe in the vapor deeply. The healing fumes of Catarrhazone will quickly disinfect your nose throat and lungs. Flu germs are destroyed.

You can prevent Grippe, Flu and Influenza by using Catarrhazone. It is healing, soothing, safe and efficient. To stop colds, sore throat, or Catarrh, nothing is more satisfactory than Catarrhazone. Even to sit in a room with Catarrhazone Vapor rising from a pan of boiling water is a wonderful protection to children and over-comes all sorts of winter coughs and colds. All druggists sell Catarrhazone, 50c. a bottle.

Will Burn Ice

Burning out of ice on the St. Lawrence River will be attempted by Dr. Howard T. Barnes, of McGill University, with whom the government has made an agreement from the department of marine and fisheries, the purpose being to free Montreal harbor from the grip of winter earlier than usual and to prevent the flooding of the country between it and Sorel.

Alberta Wool Production

The Province of Alberta now produces more than one-third of the wool output of the Dominion, the figures for 1927 being given by the Dominion Wool Growers' Association at 1,492,191 pounds out of a Dominion total of 3,648,254.

Roger W. Babson, noted American statistician and business expert, says "A uniform purchasing power higher than any previous period is now broadly distributed throughout the entire Dominion."

The difference between learning to drive a motor and learning to play golf is that when you learn to play golf you don't hit anything.

DICTATOR OF JUGO-SLAVIA

King Alexander, of Jugo-Slavia has taken into his own hands the government of his turbulent kingdom and made himself dictator. He has suspended the constitution and appointed a non-party cabinet but full legislative and executive powers are invested in the king.

Teeth and Health

Issued by The Canadian Dental Hygiene Council and Published by The Saskatchewan Dental Society

WEIGHING OF FOOD

You have suffered the annoying experience of having stringy foods wedge between your teeth; and you wonder what can be done to remedy it.

Normally, teeth should be tight together with rounded contacts as when two marbles touch; but through tooth decay and from teeth "drifting" this contact is lost.

The food then "jams" between the teeth and is held there until released—with what results?

Obviously, decay is liable to be incited in this area.

Also this impacted food material presses upon the soft underlying tissues, until they become irritated and inflamed. Thus injured, they lose their "tone" and fall an easy prey to the microorganisms that caused diseases.

Then follows the destruction of the wedge shaped tissue between the teeth; a "pocket" is formed, which, becoming infected, results in the progressive destruction of the supporting structures of the teeth, which are then lost.

You see then, what grave damage can result from so simple a cause. Now, the remedy. It is not the tooth-pick, which, through its indiscriminate use, may do further harm, and which at best provides but temporary relief.

But, where this "wedging" is first noticed, the insertion of a filling in one or both of the involved teeth to restore the contact, will clear up the trouble.

This may even necessitate the removal of a faulty filling already in place but far better this than to suffer the prolonged discomforts from "wedging" food, with its train of grave consequences, should it go unchecked.

Western Homestead Entries

In the matter of actual land settlement, the past year has seen an encouraging forward movement. For the first ten months of the year, homestead entries in the four Western Provinces totalled 11,525, as compared with 5,172 for the same period of 1927. Alberta led with 6,471 as against 2,193 a year ago. Saskatchewan recorded 3,990 against 2,311; British Columbia 594, against 91, while Manitoba registered a decline from 576 to 466.

New Marconi Rates

The Canadian Marconi Company announces the establishment of reduced rates for night letters between Saskatchewan and all places in Great Britain and Northern Ireland, which went into effect January 14. The rate will be \$4.00 for the first 50 words and eight cents for each additional word. These messages will be telegraphed direct to any destination in Great Britain and Northern Ireland. The establishment of this service does not supersede any of the existing Marconi services.

Modern Books Short Lived

The life of modern books is much too short. When a good novel comes out it has its time of triumph, which seldom lasts beyond a year. After that it falls out of discussion, and instead of regiments of readers there are none at all. In July 200,000 people may be seeking a book and talking about it, and even reading it, and then with the first frost the matter is dropped entirely. When a popular success begins to decline it falls faster than an albatross.

Did Not Recognize Siren

A couple of cute young ladies who were visiting a western city decided that they would go horseback riding, we are told, and the head groom asked one of them whether she would prefer the flat English saddle or the Western saddle with a horn. "The flat saddle," said the young thing, "because we aren't going to ride in any traffic and won't need a horn."

Groundwood Pulp
Groundwood pulp formed 58 per cent. of the total quantity of pulp made in Canada in 1926.

Reveals Secret Of Stradivarius Violin

Letter Written By Famous Maker Found At Bergamo, Italy

Italy expects again to lead in the manufacture of the world's best violins, as she did before Stradivarius, the master violin-maker of Cremona, took the secrets of his craft to his grave two centuries ago.

The method by which Stradivarius made the most precious violins in existence—how he treated woods and prepared varnish—has been unearthed, and is now in the hands of the Italian authorities, which has sequestered the documents descriptive of his methods.

Fumbling in an ancient desk which he had just bought, an Italian antiquarian found a secret drawer in which reposed what appeared to be a number of manuscripts written by Stradivarius, including a letter to a priest in which he described in detail how he made his famous violins.

The finder offered to sell the manuscripts to a Milan violin-maker, but the local authorities learned of their existence and intervened.

The owners of the bit of furniture in which the long-buried secret was unearthed are collateral descendants of the friend to whom Stradivarius' letters, revealing his methods, were written.

Stradivarius died in 1728, and two years later the priest to whom the letters were addressed moved from Cremona to Bergamas. After his death, the desk was sold at auction, reaching its present owner after changing hands several times.

Italian violin enthusiasts have vainly hunted for Stradivarius' secret for two hundred years. Its apparent discovery has made an enormous impression in Bergamo, where it is reported that the manuscripts found in the ancient desk included also the materials for an autobiography by the famous craftsman.

First American Forest Law

Was Written In Massachusetts Colony On March Twenty-Ninth, 1636

The Pennsylvania department of forests and waters at Harrisburgh, recently conducted an investigation revealing that the first American forest law was written in the New Plymouth Colony, in Massachusetts.

The original American forest law read as follows:

"Orders agreed on several times for the general good of the Colony:

"It was decreed by the Court held on the 29. of March Anno, 1626, That for the preventing of which inconveniences, as does, and may befall the plantation by the want of timber, that no man of what condition soever sell or transport any manner of works or frames, for houses, planks, boards, shipping, shallop, boats, canoes or what so ever may tend to the destruction of timber aforesaid."

Trans-Canada Highway

That the government of Saskatchewan should urge upon the Federal Government the advisability of the construction and maintenance of a trans-Canada highway, was the subject matter of a resolution notice of which was given in the Legislature by D. A. McNiven, K.C., Regina City.

If you have a particularly interesting snapshot which you would like to preserve, you can render it permanent by placing it in a 10 per cent solution of alum and letting it remain a few minutes.

The net annual value of the forest products of Canada is estimated at \$476,000,000.

"Buckley's" for Throat Health
A slip night and morning relieves soreness and hoarseness, and prevents more serious developments. A bottle of Buckley's—40 doses for 75 cents—is an economical guarantee of healthy throats for the whole family. Pleasant to take—instant in action—positive in relief. All druggists sell it.

A Wonderful Tube Station

Great Engineering Feat in London Has Been Achieved

Underneath Piccadilly Circus the most wonderful station in the world was recently opened and not until then did we realize that under the very feet of the hurrying crowds of the West End the greatest engineering feat in London since the war has been achieved, says the Overseas Daily Mail.

This tube station, which has a booking-hall that covers almost as big a floor space as the Queen's Hall, will deal with 50 million passengers a year at a point where two tubes of the Bakerloo Railway cross over two tubes of the Piccadilly line. One amazing fact is that all the material removed during the three years of operations was taken out through one small hole, once the site of Enos, in the middle of Piccadilly Circus. Further, the whole of the station was lowered piecemeal through the same hole. Considerably more than £500,000 has been spent on this three-years task.

The booking hall is a sumptuous basement to the whole Piccadilly Circus. The roadway is held up by 57 girders, each bearing 230 tons. There are eleven of the newest type of escalators. There are foot-bridges circular stairs, and landings and passages built by men who burrowed towards each other with drills that met without a fraction of an inch of error.

Columbus As a Spaniard

Document Found Recently Would Indicate Birthplace of Explorer As Being In Spain

A document found in the archive of Pontevedra parish in Spain, mentioned that place as having been the birthplace of Christopher Columbus. It thus bears out the claim that the discoverer of America was a Spaniard and not a native of Genoa, Italy. The document contains a description of the burial of Columbus and said that the Duke of Veragua, descendant of the mariner, had sold in the 18th century the lands on which stood the building where Columbus was born.

Stolen Dog Found by Radio

Radio was the means of reuniting a professor and his dog in Amsterdam, Holland. The dog was stolen, escaped, and was adopted by a country doctor. The owner of the dog made a speech over the radio. The dog on hearing the voice, showed so much excitement that the country doctor investigated and later returned the dog to its rightful owner.

Offer Reward for Cancer Cure

The grand council of the British empire cancer campaign has announced approval of an offer of two prizes of \$2,500 each, in 1931 and 1933, for the best original piece of work in the investigation of cancer carried out in the British empire.

Snake bites kill more than \$1,000,000 worth of cattle in Texas each year.

Cut Down Food Wastage
---by covering all perishable goods with Para-Sani Heavy Waxed Paper. Para-Sani moisture-proof texture will keep them fresh until you are ready to use them.
You'll find the Para-Sani sanitary knife-edged carton handy. Or use "Centre Pull" Packs in sheet form for less exacting uses. At grocers, druggists, stationers.

THE CRIMSON WEST

— BY —
ALEX. PHILIP

Published by Special Arrangement With Thomas Allen, Publisher, Toronto, Ont.

CHAPTER XII.—Continued.

Andy took the wounded bird from her hand. "Ow did it 'appen, Connie?" he asked tenderly.

Connie was as open and unaffected as the wild birds of the forest. She was as capable of hating as she was of loving. Her eyes were laughing eyes, and the soul that looked out of them a merry soul, but she had a temper, and under sufficient provocation her blue eyes could take on a dangerous glow.

She now turned like an enraged lioness on the foreigner. "He killed it with a stick!" she cried furiously. "You brute, you cowardly brute."

In her rage her voice became incoherent. With hands clenched and with breath coming in short gasps, she moved nearer to the object of her hatred. In her hysterical anger her voice rose almost to a scream.

"You cur, if I were a man I'd—I'd lick you!"

The cry came to Donald's ears, and he was off up the trail like a deer.

"Go ahead, I'll follow," responded Gillis.

Andy looked down on the mother goldfinch as it lay in his hand. He felt the quick throbbing of its heart grow fainter and fainter. One wing was broken and its white breast was stained with blood. The bird's head drooped lower, and a film settled over its bright eyes. The beautiful wings stretched rigidly, and it gasped convulsively, sending a tiny stain of crimson from its mouth that felt warm on his palm.

Andy's face became colourless. His hand shook violently as he placed the dead bird tenderly on the ground. "Connie dear," he said, in a voice that trembled, "I ain't a whole man, but 'ere's where you see 'arf a man goin' into battle to give all he's got."

He removed his coat and threw it from him. Through a rage-mist Andy saw the grinning foreigner throw up his arms in an absurdly unscientific posture of defence. Like a mad cat, Andy launched himself straight at his husky opponent. The grin was wiped from the big man's face by Andy's compact fist, as it smacked resolutely on the end of his thick nose with a snap like that of a whip, and with a skilled force that brought blood.

Andy's years of training boxers now stood him in good stead. He well knew that a small man would stand little chance in long range fighting, and he kept well inside the larger man's wild swings. With his blond head tucked against his adversary's body, his fists worked like pistons; he kept sending short jolts to the body that brought heavy grunts every time they landed.

Connie was delicious with excitement. "Hit him, Andy! Hit him! Good! Good!"

And then she groaned as the big man's hand found Andy's throat and fung him to the ground. Little Andy was up immediately, but stepped into a swinging fist that caught him over the eye and sent him sprawling. Undaunted, he came to his feet, waited warily for an opening, and again sprang under the big man's guard.

Andy's fist shot up in a ripping uppercut that was judged to be a nice, catching his opponent on the point of his chin with force enough to send him rocking on his heels, and before he could recover himself the same fist, accompanied by his mate, beat a tattoo on his solar plexus.

In desperation the bewildered man wound his arms about the little Australian and lifted him high in the air. Like a game bulldog Andy hung on. Though his feet were off the ground

he clung to the big man's body like a leech.

Again the big hands felt for Andy's throat, and he was flung six feet to strike with a thump that shook every bone in his body. Connie cried out in fear as he narrowly avoided a brutal blow aimed at his head.

Andy's sense of British fair play had received a rude shock. "As Me-thusalem said," he panted, as he came to his feet, "when in Bohunkia do as the Bohunks do."

"Take that, Spaghetti!" he shouted, as he kicked the foreigner viciously on the shin. While the latter leaned over in pain, Andy shot a well-directed uppercut to his face. The big man sat down, a dazed look in his eyes.

Breathless, Donald arrived on the scene, with Gillis puffing in the rear. Breathing heavily, Andy's adversary came to his feet, picked up his hat, and with arms wound about his head beat a hasty retreat. Andy was after him like a hornet, sending stinging blows through his vulnerable guard. Donald and Gillis stood with mouths agape to see Andy administering a sound thrashing to a man twice his size. Right to the edge of the woods he relentlessly pursued his fleeing enemy.

Andy's head was held at its usual cocky angle, and he assumed a swagger as he retraced his steps, but his short legs wobbled and he sank dizzily to a slump.

"I brought 'is blinkin' meat-ouse down, Connie," he gasped.

"Oh, Andy, you're a darling!" she cried, throwing her arms impulsively around the little man's neck, and touching her lips to his cheek.

Andy's florid face took on a deeper magenta, and he blinked hard to hide certain signs of emotion. He afterwards admitted to Donald that he was no "sweet sixteen," and that it was the first time that he had ever been kissed in his "bloomin'" life.

Connie wet her handkerchief in the cold water of the creek and bathed his face with tender care.

She showed Donald and Gillis the nest with the motherless birds, doomed to die a premature death by this act of wanton cruelty, and pointed to the tiny bird on the ground, for whose untimely end Andy had taken a well deserved and summary vengeance. Connie choked as the lovely male bird flew to a stalk of goldenrod near its dead mate and sent out its throaty warble.

"Dear, dear, dearie," sang the goldfinch in a plaintive, questioning note.

Andy presented a pitiful figure with an eye closed, his lips swollen, his face bruised, but the indomitable spirit of him shone from his one bright orb.

"You darned little buzz-saw!" said Gillis tenderly.

Donald slapped his little friend on the back, his eyes shining with admiration.

CHAPTER XIII.

Renwick announced that Robert Rennie's daughter and a party of girl friends were to visit Summit Lake the following week, and carpenters were set to work erecting cottages for their accommodation.

A few days before her arrival Donald was both surprised and pleased to receive a cordial letter from her in which she said that she was looking forward with pleasure to the coming holiday, and that she would deeply appreciate anything he might do for the entertainment of her friends.

As always, her father spared no expense in providing for the comfort and pleasure of his daughter. That week a car containing a motorboat, canoes and six saddle-horses was run in on a side-track at the mill.

Connie learned of the coming event through Donald as she was watching with keen interest the unloading of the spirited animals.

"You will enjoy yourself next week, Connie," he said gaily. "Miss Rennie is coming with friends. We'll have rides, picnics and dancing."

Andy's years of training boxers now stood him in good stead. He well knew that a small man would stand little chance in long range fighting, and he kept well inside the larger man's wild swings. With his blond head tucked against his adversary's body, his fists worked like pistons; he kept sending short jolts to the body that brought heavy grunts every time they landed.

Connie was delicious with excitement. "Hit him, Andy! Hit him! Good! Good!"

And then she groaned as the big man's hand found Andy's throat and fung him to the ground. Little Andy was up immediately, but stepped into a swinging fist that caught him over the eye and sent him sprawling. Undaunted, he came to his feet, waited warily for an opening, and again sprang under the big man's guard.

Andy's fist shot up in a ripping uppercut that was judged to be a nice, catching his opponent on the point of his chin with force enough to send him rocking on his heels, and before he could recover himself the same fist, accompanied by his mate, beat a tattoo on his solar plexus.

In desperation the bewildered man wound his arms about the little Australian and lifted him high in the air. Like a game bulldog Andy hung on. Though his feet were off the ground

A few minutes later Connie joined Andy, who sat on the steps of the kitchen door enjoying a breath of fresh air.

"Is Miss Rennie rich, Andy?"

"An 'ole barrel o' dough."

"Is—Is she beautiful?"

"Tee 'eard so, Connie."

A short pause ensued while she searched the pockets of her overalls and produced several neatly folded papers. She extracted one, pressed it smooth, then passed it to Andy.

"Does Miss Rennie dress like that?"

It was a photograph of an actress dressed for the street, taken from one of the magazines that Donald had given her.

"I think so, Connie."

"Oh! She must be wonderful, then!" said Connie earnestly.

She moved closer to Andy, unfolded another page, and spread it on her knee.

Andy bent his blond head close to the one of gold. A startled look crossed his features and his brows bobbed up and down. It was a full-page advertisement of ladies' lingerie. The highly coloured illustration of a lady, partially dressed, achieved its object of arresting the eye, while the remainder of the space was occupied by articles of apparel similar to those adorning the lady's graceful form.

Andy coughed. "Er—yes, Connie."

Connie raised her eyebrows incredulously.

"All at one time?"

"Sure—sure," mumbled Andy.

Connie stared. "Why, there must be nearly a dozen pieces. How is this fastened?" she questioned as she pointed with a slender brown finger to one of the engravings.

Andy took a quick glance. "Buttons."

"And this?"

"Buttons," replied Andy, gripping the bowl of his pipe and sending out clouds of smoke.

"And this?"

"Strike me blind, what a 'ell of an 'ole," thought Andy.

"Buttons," he responded desperately without looking at the paper.

(To Be Continued.)

Shelter Belts Help West

Twenty-five years ago one could drive for miles through the farming districts of the Prairie Provinces and seldom see a good farm garden, but the advent of the shelter belt has gradually worked a great change in conditions. Last season an inspection of some 7,600 farms in which shelter belts had been established as a result of the tree planting campaign carried on since 1901 by the Tree Planting Division of the Forest Service, Department of the Interior, showed 6,800 farms with good vegetable gardens. Two thousand, seven hundred were growing small fruits and about 600 were experimenting with apples or plums, or both.

Royal Bank Promotions

Announcement of Changes Has Been Made By Head Office

The head office of the Royal Bank has announced the following promotions:

S. A. Duke has been appointed assistant supervisor of Ontario branches with headquarters at Toronto.

B. L. Mitchell, manager at Vancouver, for the last three years has been appointed manager of the Toronto branch.

A. T. Lowe at Calgary will succeed Mr. Mitchell at Vancouver and F. W. Doherty, of Edmonton, goes to Calgary. M. A. Allingham, assistant manager at Vancouver, takes over the Edmonton branch.

Manitoba's Fine Building Marble

Manitoba, which has already achieved a reputation for fine building stone through the Tyndall limestone used in public buildings throughout Canada, including the interior trimming of the Parliament Buildings at Ottawa, has added marble to its products.

The new marble quarry is near Cormorant Lake, 39 miles north-east of The Pas, on the Hudson Bay Railway, and several carloads have already been shipped.

Canada's Motor Vehicle Exports

The sun never sets on made-in-Canada motor vehicles. Canadian cars and trucks are exported to 90 countries, and Canadian automotive exports exceed in value, by a wide margin, the exports of other mechanical products of this country. No manufactured products, other than one or two dependent on the exploitation of natural resources, rival, let alone excel, those of the automotive industry in exports.

Kellogg Explains Treaty

The Paris pact for renunciation of war commits none of the signatories to it to go to war in defence of any country attacked in defiance of the treaty. Secretary of State, Frank B. Kellogg, informed the Senate committee on foreign relations during the recent hearings. He added that Canada made it plain that the dominion would not be a party to the treaty unless that was understood.

Sixteen hundred different noises disturb Milwaukee, according to police survey.

COUGHS

are Nature's signals warning that resistance is broken and the body undernourished.

Scott's Emulsion

is a blessing to all who need strength. It helps keep the body vigorous and healthful. Try it!

Scott & Bowne, Toronto, Ont. 25-59

Cold Weather Assists Bay Line Construction

It Work Moves According to Schedule Steel Will Reach Terminal Before Spring.

"Laying of steel is proceeding on the Hudson Bay line from Mile 356 to Fort Churchill and if the work moves according to schedule steel will be into the new Hudson Bay terminal before spring," it was stated by H. A. Dixon, chief engineer Western Region of the Canadian National Railways, who has returned to Montreal from a trip over the line as far as the "Barren Lands."

"The construction of a telegraph line into Fort Churchill is proceeding rapidly," said Mr. Dixon, "and within a short time Fort Churchill will be in telegraphic connections with the rest of the world. Building of the pole line is proceeding ahead of the laying of steel."

The cold weather of the territory is being made to assist the contractors in the building of this track rather than hindering them. Under the plan of operation, ties and steel are laid directly on the muskeg, the only work done is that by a gang of men who are levelling off humps and surfacing with natural muskeg for the track. A cutting which is to be made at one point will also be made during the winter months. As soon as the steel has been laid into Fort Churchill a steamshovel will be moved to that point where there is ample good ballast for the ballasting of the 50 odd miles of track which remained to be constructed at the beginning of this winter. This steamshovel will be placed in operation and the track will be ballasted from the Fort Churchill end. Approximately 500 men are employed in this work north of Mile 356 at the present time.

According to the engineers' reports and also the personal observations made by Mr. Dixon during his visit to the point where work was being carried on, no great difficulty has been experienced in laying the track over the natural muskeg with the exception of weather conditions. Progress on the work was held up for a few days in December on account of bad storms on the "Barren Lands," but from the period just before Christmas up to the present the work has been progressing according to expectations. "The contractors," Mr. Dixon said, "are now building caches, hauling supplies, making tote road and so forth from the end of steel to Fort Churchill. The department of railways and canals are operating tractors, which have sleigh runners in front and caterpillar drive wheels. From the end of the steel to Fort Churchill a very good road exists over this section where the line is still to be built."

Illiteracy In Russia

Education Falls Off During the Soviet Regime

Whatever has progressed in Russia under the Soviet regime, education has not. There is more illiterates in the country than there ever was before. This is admitted by Izvestia, the organ of the Soviet Government, which, in commenting on the official estimates for the next financial year, says: "No decided step has been taken to remove a series of most crying anomalies in educational work. All standards on the educational 'front' remain behind, and considerably behind, pre-revolutionary standards."—Victoria Daily Colonist.

Already Advised

An "accident" case, in which the patient was suffering from a wound in the head, was taken to hospital. After taking the usual particulars as to age and next of kin, the official said: "Now, don't worry, I shall take immediate steps to ensure your wife being advised of your detention here, and so save her from anxiety." To which the patient resignedly replied: "She did it, Miss!"

"Your girl is a blonde, eh? Suicide or natural?"

"What do you mean by suicide blonde?"

"One who dyes by her own hand."

Winnipeg's postal revenue for 1925 amounted to \$3,620,000, an increase of \$120,000 over the previous year.

One million, four hundred and ninety thousand, three hundred and forty cows supplied milk to creameries in Canada during 1926.

Honey production in British Columbia in 1928 is valued at \$210,855 and bees-wax at \$5,000. This yield is from 19,213 hives.

W. N. U. 1769

Quality Of Canadian Goods Has Improved

Research And Skilled Labor Have Been Big Factors

The quality of Canadian products is steadily improving, with greater knowledge of research, scientific methods, processes, application of skilled labor and the needs of buyers. In the face of mass production competition, Canadian producers are seeking to hold their places by giving special service, better quality or distinctive features to their products. That they are succeeding is proved by the fact that Canadian manufactures are exported to over a hundred countries, while supplying the greatest part of domestic needs. A still greater share of the home market would result in more production, more employment and more exporting, and it is therefore important that home industry should be encouraged by stabilization and other necessary measures as much as possible.

Recipes For This Week

(By Betty Barclay)

RICE AND SALMON SALAD

Take equal parts of salmon and cold boiled rice; stir with a fork until the fish and rice are thoroughly mixed. Pour into a salad dish and cover the whole with mayonnaise or boiled dressing.

Canned tuna fish, left-over chicken, meats, ham, or vegetables can be used in the same manner—always use equal quantity of rice. The addition of celery and hard-boiled eggs make a more elaborate dish.

SANDWICH FILLING

One pound of mixed nuts (be careful to keep small particles of shell from clinging to the meats). One cup seedless raisins. Grind together in a food grinder, add a little salt and the juice of one small orange. Work together very thoroughly, place in a glass container and keep in a cool place. Can be used between thin, well buttered slices of whole wheat, white or bran bread. Ideal for school lunches, workman's lunches or picnics.

Congress Of Nurses

Delegates Coming To Montreal Convention From Many Lands

For the international Congress of Nurses, to be held in Montreal, in July, acceptances have been received from the following countries to date: Great Britain, United States, Australia, New Zealand, Hawaii, India, South Africa, Irish Free State, France, Belgium, Germany, Switzerland, Spain, Italy, Bulgaria, Austria, Poland, Greece, Turkey, Yugoslavia, Czechoslovakia, Latvia, Estonia, Sweden, Norway, Holland, Denmark, Iceland, Cuba, Java, Philippine Islands, Brazil, Ecuador, Argentina, Chile, China, Japan, Korea, and Syria.

Actor—"I say, you know I'm getting awfully popular. I see some tobacco people have named a new cigar after me."

Manager—"Oh! Well, I hope it'll draw better than you do!"

Minard's Liniment for Coughs and Colds.

Hewitt—"Can you get your wife to try the budget system?"

Jewett—"No; she won't budge."

More than half of the known elements are metals—about 50 in all.

WINDOLITE

The Improved Glass Substitute

MADE IN ENGLAND

WINDOLITE stands for 100 per cent. sunlight. It makes light but strong windows for cattle sheds, dairy stables, poultry houses, brooders and all out buildings. It is economical, unbreakable, flexible and is easy to cut and fit. It is now being successfully used for sunrooms, verandas, schools, factories, hospitals, sanitariums, hot beds, plant coverings and greenhouses. It keeps out cold—will not crack or chip—cuts with an ordinary pair of scissors and is easy to fit. WINDOLITE is supplied in rolls any length but in one width of 36 inches only. A square yard of WINDOLITE weighs about 14 ozs., while a square yard of glass of ordinary thickness, weighs about 135 to 120 ozs. The improved WINDOLITE requires no varnish. WINDOLITE is made in England.

Price \$1.50 Per Square Yard, f.o.b., Toronto.

Use WINDOLITE and let YOUR PLANTS YOUR CHICKENS YOUR CATTLE Bask in 100% Sunlight Send for booklet "WINDOLITE"

Success In Turkey Raising

Man From England Does Well With Turkeys In British Columbia

Two years after Jesse Throssell went to British Columbia from Bedfordshire, England, he was styled the "Turkey King of the Fraser Valley," a fertile farming country near Vancouver. In the spring of 1927, a few months after his arrival on the farm he bought in the Fraser Valley, Mr. Throssell sent to England for two pure bred hen turkeys and one tom turkey, and with this nucleus he raised a flock of seventy birds that year. In the autumn of 1928 he had between 500 and 600 turkeys ready for the market. He exhibited at the Vancouver Winter Fair in 1928 winning the principal prizes in all the classes which he entered, including gold medal and first prize for the best turkey and first prize and special for best pair. He also won in the dressed turkey classes. Six dressed turkeys which weighed a total of 156 pounds were put up at auction and sold to the Lieutenant-Governor of British Columbia for \$187.80. For the best bird of the lot the Lieutenant-Governor paid \$45.00; it weighed twenty-seven pounds. Mr. Throssell recently shipped a number of turkeys to Australia for breeding purposes. His birds now command the highest prices. He estimates his 1929 flock will return him about \$5,000.

Mr. Throssell's success has been so encouraging that he has induced his brother to come out from England and settle on an adjoining ranch, and the two will work together to develop and extend the turkey raising enterprise.

Frenchman Invented Eyelet

French celebrated recently the centenary of the birth of the metal eyelet. Francois-Jean-Guillaume Gobin-Daude was the inventor. The first application of the eyelet was to corsets and it gave that industry a great impetus. Eyelets later were put in shoes.

Little Helps For This Week

"As we have therefore opportunity, let us do good unto all men,"—Galatians vi. 10.

The means that Heaven yields must be embraced and not neglected. —Shakespeare.

Miss not the occasion; by the forelock take That subtle power, the never-halting time, Lest a mere moment's putting off should make Mischance almost as heavy as a crime. —William Wordsworth.

It is decreed in the providence of God that although the opportunities for doing good, which are in the power of every man, are beyond count or knowledge, yet the opportunity once neglected, no man by any self-sacrifice can atone for those who have fallen or suffered by his negligence. —Julian Horatia Ewing.

Fresh Supplies In Demand.—Wherever Dr. Thomas' Electric Oil has been introduced increased supplies have been ordered, showing that wherever it goes this excellent Oil impresses its power on the people. No matter in what latitude it may be found its potency is never impaired. It is put up in most portable shape in bottles and can be carried without fear of breakage.

Easily Done

George (nervously): "I'd like best in all the world, Rose, to marry you, but I don't know how to propose."

Rose (promptly and practically): "That's all right, George, you've finished with me. Now go to father."

Suitor—And, darling, let's be married soon.

Film Actress—Sure. Let's make it next week. I've never been married in January before.

Minard's Liniment for the Gripe and Flu.

The palatial stables of the former German Kaiser have been converted into Berlin's first indoor tennis court.

When Pain Comes

What many people call indigestion very often means excess acid in the stomach. The stomach nerves have been over-stimulated, and food soured. The corrective is an alkali, which neutralizes acids instantly. And the best alkali known to medical science is Phillips' Milk of Magnesia. It has remained the standard with physicians in the 50 years since its invention. One spoonful of this harmless,

tasteless alkali in water will neutralize instantly many times as much acid, and the symptoms disappear at once. You will never use crude methods when once you learn the efficiency of this. Go get a small bottle to try. Be sure to get the genuine Phillips' Milk of Magnesia prescribed by physicians for 50 years in correcting excess acids. Each bottle contains full directions—any drugstore.

men Oppose Foreign Colonies

News: We desire through your
...to inform the public that we
...have forwarded the following resolu-
...to Hon. Wm. Atkinson, M. L. A.
..."We the members of the Abbotsford
...Loyal Orange Lodge, view with alarm
...to the extent to which the re-claimed
...area on Sumas Prairie is being settled
...by aliens, or non-English speaking
...people.

We believe that one of the greatest
...needs of the Fraser Valley at the pres-
...ent time is to have Sumas Prairie
...settled, and converted into revenue
...producing area, but are strongly ap-
...posed to these aliens obtaining any
...more holdings at this time, believing
...that the country can best be served by
...having the said area settled by En-
...glish-speaking people, who believe in
...British principles and ideals.
...Trusting that you will do all in your
...power to attain this end."

Abbotsford L. O. L. 1867

FARMERS PLEASED WITH TAX REDUCTIONS

urther adjustments in the relief
...for Sumas landowners were an-
...nounced from Victoria last week-end,
...providing for reductions up to \$20 an
...acre upon certain of the marginal lands
...affording some of the farmers a most
...decided reduction in taxation. The
...following report refers to the "less-
...valuable" lands to be affected, but this
...discrimination is obviously made for
...publicity purposes, as the higher levels
...of marginal lands are in most cases re-
...garded as more valuable by owners,
...who appreciatively receive the govern-
...ment's declaration to reduce taxes.

The first form of relief to the holders
...of more than eighty acres will be of
...assistance to the larger land owners,
...who did not benefit under the relief
...scheme, which has been applied in the
...last year. This relief can go up to 25
...per cent of the total charges against
...the land, being allocated by a relief
...commission. It will be made retro-
...active to January 1, 1928, but will be
...granted only after owners have paid up
...their outstanding taxes. This meas-
...ure the government feels is necessary
...as many owners were refusing to pay
...their taxes and threatened to sell their
...lands.

All the less valuable privately-owned
...lands in the area will be covered by
...the new scale of capital charges. These
...charges will be reduced on all classes
...from D to J. On classes from D to G
...inclusive the capital charge will be
...\$30 instead of \$50. The scale fixed for
...Class H is \$20; for I, \$10; and for J,
...\$5. Classes B and C, the best of the
...privately-owned lands, remain at \$50.

In the opinion of the government,
...existing charges are too high to make
...successful farming possible. The
...lands which receive the largest re-
...ductions are of the least value and re-
...quire the most expenditure to make
...them productive. The new relief
...scheme follows the decision of the gov-
...ernment to sell lake bottom lands at
...reduced prices in the belief that the
...province must take a heavy loss on the
...Sumas scheme some time, and the
...sooner this is absorbed and the sooner
...the land made productive the better.

The total cost of the Sumas re-
...clamation scheme is \$4,673,409 to date,
...according to information given to the
...Legislature by Hon. Wm. Atkinson,
...minister of agriculture. Organization
...expenses and preliminaries cost \$94,500.
...The contract price paid was \$2,899,500.
...Maintenance and development cost
...\$436,507, and interest on advances,
...\$1,242,901. The loss on farming opera-
...tions for the year ending December 31,

Parent Says Boys Getting Liquor

Mr. Editor:
I think it is time that the mothers
...and fathers of Abbotsford got busy
...and found out who is the low-down
...snake of a man that is supplying our
...boys with liquor, and get him and hand
...him over to the law, and hope he gets
...the limit. The boys don't like it, but
...think it is smart and manly to drink
...and then when they are scolded for it,
...think they are abused; and the one to
...blame is the one that sells it to the boys
...to make a living rather than work.

ONE OF THE MOTHERS

New Firm Of Bakers In Operation

Messrs. Weekes and Bader opened
...up their Abbotsford Bakery in the Ben-
...edict store this week with a stock of
...bread, tarts and other bakings of their
...own, which were delivered by their
...own truck to wholesale and retail cus-
...tomers. Mr. Weekes is a Cornishman,
...but has had many years experience at
...the Coast, where he was baker for
...Robertsons, Vancouver. Mr. Weekes
...executes the baking, and Mr. Bader,
...who comes here from Ferndale, directs
...the business details and delivery. The
...new firm state their intention is not
...to rival the established local industry
...so much as to go after business which
...is at present sent to Vancouver.

Mr. M. Golos of Kilgord is ill with
...pneumonia.
The Chas. Everett farm of 72 acres
...on Delair road, Sumas Prairie, has
...been purchased by Samuel Austin. E.
...S. Plaxton effected the sale.

1928, was \$45,437, while the deficit on
...income on the project operations to
...January 1, 1928, was \$2829.

As for the lake lands, informed op-
...inion agrees that prices must be further
...reduced to induce settlement by de-
...sirable types of farmers.

With tiny tugs panting in their efforts to nose the twenty thousand
...ton Canadian Pacific liner Duchess of Athol into the stream, 350
...passengers left New York recently on a "Cruise of Contrasts" that
...will take them to twenty ports in the West Indies, South America,
...Africa, Egypt, Italy, Monaco and France.

This is the second South America-Africa cruise by a Canadian
...Pacific ship. Last year it was undertaken by the Empress of France,
...the first ship to land goods at the lonely island of Tristan de Cunha
...successfully. The visit to this isolated spot is one of the most ro-
...mantic episodes in the lives of the cruisers, and when they return to
...Canada they will have the distinction of being among the seven hun-
...dred non-seafaring people ever to have that opportunity.

Have You Made Your Will?

Only second in importance to execution of a Will to ensure the
...disposition of your estate in accordance with your wishes, is the
...choosing of a SAFE Executor. Its lengthy experience and the
...fact that it never dies and is never ill or absent, make the Trust
...Company the Ideal Executor.

MEMBERS OF SUMAS CO- OPERATIVE RENEW CONTRACTS

At the annual meeting of Sumas
...Co-operative Association held last Fri-
...day, a financial statement of the or-
...ganization's activities for the preceding
...12 months was presented and accepted.
...Over 1600 tons of produce was market-
...ed during the year, it was shown, re-
...realizing a total of \$51,499.36. A net pro-
...fit of \$310.38 was shown.

Five-year contracts were signed up
...by all members of the organization,
...with provision for termination by the
...member giving 90 days notice at Jan-
...uary 1 in any year during the term of
...the contract.

Poplar United Church Report

The annual congregational meeting
...of Poplar United Church was held re-
...cently at the Community Hall, with
...Rev. R. Moses in the chair.

The Sunday School report was very
...encouraging, showing a membership of
...25, with \$72 raised for local purposes.
...Besides this, \$30 was raised by the
...school for the Missionary and Main-
...tenance Fund. C.G.I.T., Trail Ranger,
...Explorer and Golden Key groups have
...been organized, and are showing great
...progress.

Rev. Moses reported 12 names on
...the church roll. The financial report
...showed \$277 raised during the year for
...all purposes. All obligations have been
...met and the church feels encouraged
...by the splendid results and hopes for
...great things during 1929.

Auto, horse and foot used to reach scene of trouble

They had to travel by
automobile, horse and foot
to reach the scene of the
telephone trouble—but they
got there, and speedily re-
stored service.

Such was the experience
of the repairmen of the B.C.
Telephone Company on
Monday, January 28, when
cold weather caused a
break in the Vancouver-
Calgary circuit. The
trouble was about 15 miles
from Kamloops, but the
huge snowdrifts made the
main road impassable in
places, and a detour was
necessary. The telephone
men rode 12 miles in an
automobile; when the auto
could go no farther, they
obtained a team of horses;
and four or five miles be-
yond, when the team could
not get through, they set
out to do the remaining
three miles on foot.

They had the line back
in order by three o'clock
that afternoon.

W. W. JOHNSTON, Auditor

Huntingdon, B.C., Dec. 31st, 1928.

Trinity Church Anniversary To Be Marked By Services And Social

Twenty-one years ago this month, Trinity United Church was dedicated for public worship, and fitting services to commemorate the occasion will be held in the Church on Sunday, February 24, morning and evening. Rev. H. M. Rae, M.A., a friend from boyhood days of the minister will be the special anniversary preacher. The choir will render special anthems at both services. On Monday evening an anniversary social will be held commencing at 7.45 in the church. Rev. C. McDiarmid of Mission, who was one of the ministers present when the church was opened 21 years ago, has promised to be at the social. Rev. H. M. Rae will also be present, and a stirring lecture will be given by Rev. J. Richmond Craig of Vancouver, his subject being "The Ramblings of a Rolling Stone." Greetings will be conveyed by letter and in person from former residents of the Abbotsford Manse. Refreshments will be served at the close, and a hearty invitation is extended to everyone to attend.

Mr. E. Barrett and Mrs. Swift have given a 30-day option to the Public Works Department for purchase of a frontage to their Yale road property for use as right-of-way for the Inter-provincial highway.

J. Lemieux of Kilgord underwent a serious operation in the hospital last week.

Mr. and Mrs. Burroughs of Chaplain, Sask. are guests of Mr. and Mrs. T. McMillan.

SUMAS UNDERTAKER EXTENDS FIELD OF SERVICE TO MISSION

J. C. Gillis, of Sumas, Wash., announces that he has purchased the undertaking business of J. H. Jones, Mission, and is making plans for taking care of his enlarged territory.

Mr. Gillis is no stranger in this district, having extended his services into Canadian territory for 20 years, and operated his parlors in Sumas City for a decade previously. He has one of the best-appointed mortuary homes in the north-west, and this, coupled with an efficient service, has built up a durable connection for Mr. Gillis with Canadian families.

Although most families have preferred the more elaborate facilities available in the Sumas City mortuary, and Customs stipulations have been adjusted to permit transit of bodies across the border, Mr. Gillis has had available a branch of his service at Huntingdon since 1911. In the event of certain conditions, he may move this branch to Abbotsford. The Gillis funeral service now includes skilled embalming (Mr. Gillis has shipped bodies to practically every state in U.S. and province in Canada), well appointed receiving, slumber and rest-rooms, and four modern, presentable vehicles, with a range of fees to suit every requirement. Mr. Gillis is a graduate of the Barnes School of Undertaking, at Chicago, Ill.

Ratepayers Protest Changes At Glenmore School, Gifford

Ratepayers of the Gifford district held a meeting in Glenmore school on Monday evening to protest against the closing of one room in the local school, and transferring pupils to Dunach. Trustees Smith, Carr, Merryfield, and Carmichael were present, and participated in the discussion. The meeting named a delegation to attend the next regular School Board meeting, to submit an expression in the matter.

Two Indian lads, whose homes were a Port Renfrew and Port Naas respectively were turned over to officials of the Coqualeetza Institute after they were intercepted by Immigration Inspector Morton when they attempted to illegally enter Canada through the Huntingdon port. The boys had run away from home, and after a varied experience in the States decided to return to Canada.

Mr. Tom. Marshall of Huntingdon has obtained a position with the Puget Sound Light & Power Co. at Bellingham.

Mr. and Mrs. Charles White of Broadview, Sask., have been the guests of Mr. and Mrs. E. A. Hunt for the past week.

Mr. R. Ellis of Merritt is assisting at the News office.

Come and Have a Jolly Time at Ridgedale

The Avalon theatre is the cynosure of all eyes, theatrically speaking, in this community, because of the current screening at this playhouse of the \$2,000,000 photoplay, "Uncle Tom's Cabin". This production, which is said to have been in the making for more than two years, has played as a road show in large cities throughout the east, but despite this fact, it is being shown as a regular attraction at the Avalon.

Critics throughout the country have classed this multi-reel version of Harriet Beecher Stowe's novel as ideal entertainment for every member of every family, because of its perfect blending of romance, drama, heart interest, thrills, suspense and action. More than 5,000 players are said to comprise the cast of "Uncle Tom's Cabin". Among the principals are Marguerita Fischer as Eliza; Arthur Edmund Carewe as George Harris; Mona Ray as Topsy; Virginia Gray as Little Eva; George Seligmann as Simon Legree; Lucien Littlefield as Lawyer Marks; and James B. Lowe as Uncle Tom.

The picture is a Universal spectacle, with the direction of Harry Pollard. "Uncle Tom's Cabin" is being presented by a New York symphony orchestra, and the Dixie Jubilee Singers, choruses of 100 voices.

Wash Away That Itch

With a Penetrating Antiseptic
Now you can stop burning itching skin tomorrow. Apply the pure cooling liquid D.D.D. ITCHING STOPS INSTANTLY. The healing elements penetrate the skin and soothe the irritated tissues. Eczema, pimples, ulcers, rashes, sunburn, etc. A 35c bottle proves its merit on your druggist gives you money back. D.D.D. never fails again. (Use D.D.D. Soap).
ERIC T. WEIR, Druggist

Bill Polson Says—

It's just mighty hard to tell, which upsets a town quicker, a good looking woman or a homely rich old bachelor.

We used to accept as an indication of savagery the fact that Indians painted their faces.

Two smiles with every purchase—Your smile of satisfaction Our smile of appreciation.

THE BUSY CORNER Opposite ABBOTSFORD POST OFFICE

There's **ONE Dollar** in the pay envelope bigger than all the rest

WHEN you realize the service rendered by each of your dollars—you must realize that every dollar isn't the same size. Take the dollar that goes for pleasure—a show, candy, gasoline—a happy, indispensable dollar, to be sure—but when it's gone it's gone.

The dollar that goes for electrical service is bigger than all the rest, for it brings an essential, yet at the lowest possible rate. This electrical dollar will operate a 40-watt lamp for 1,250 hours! It operates radios, toasters, all kinds of household helps for hundreds of hours!

Electricity—the smallest item on the family budget, yet far from the least important.

Quality Construction

This district is fast outgrowing the shack stage of construction. Today men build for permanence, comfort, weather-and-fire protection, and for beauty. In the long run this spells Real Economy. Let me give you figures on your next job—perhaps the ideas and experience of my staff will be of value to you.

NELS OLUND - Contractor

Phone Abbotsford 87Y MT. LEHMAN, B.C.

Here we have five good reasons why Skiing is so popular now in Quebec. There are cross-country races for ladies, junior and senior events and jumping for the experts. With its ice pageant, the most colorful winter event of the east, and the International Dog Sled Derby, Quebec City has become in winter even more of a popular resort than it is in the spring and summer.

B. & K. Feeds Have a Proven Reputation

Poultrymen, Dairymen—all Farmers—know they don't buy B. & K. feeds on our say-so. Years of reputation for Sterling and Uniform Quality, and Consistently Lowest Market Prices are behind B. & K. Products. Our Abbotsford branch is always well stocked with the required commodities.

What Lee's Investment and Payroll Means to You

THE NEW

BAKERY

"The Staff of Life"

embodies features which will enable us to offer the ultimate in

Cleanliness, Tastiness, Quality Bread

A STAFF OF TEN MEN—AN INVESTMENT IN BUILDINGS, EQUIPMENT AND STOCK OF TWENTY TO TWENTY-FIVE THOUSAND DOLLARS. The wages of our staff are spent in this community, in buying necessities, clothing, amusements, paying taxes, supporting churches, fraternal and social organizations, and our staff do their bit in public work. The investments in buildings, realty and machinery provide taxable sources, build up the town and district, and work for garages and auxiliary services is provided by our vehicles, our advertising contributes its share in the maintenance of a newspaper for this town and district.

DOES THIS MEAN ANYTHING TO YOU?

Lee's bakery is a model of modern equipment and appointment, and is well worth a visit. Machinery executes every process, and the bread need not be handled at any stage in its making. The flour is stored in large, vermin- and moisture-proof containers with sealed covers, with a trap at the bottom, which when opened, permits the flour to pour through strainers into an enclosed mixer. Water is piped direct into the mixer from a sterilizer and tempering tank, and when mixed and raised, the dough is conveyed down an enclosed shaft into the weigher and divider in the baking room. The divider forms the dough into loaf units of uniform size and weight, in readiness for the oven, into which they are taken on a conveyor. After baking, the bread is placed in specially-built covered boxes for delivery. Electric motors drive all machinery, the plant being of Pendrith (Ontario) manufacture throughout. The oven is a Brantford continuous baker of 550-loaf capacity, and one of the most modern on the market.

Never Handled In Process Of Baking

"Why, Vye, don't you know that when you send your bread money away, it's gone forever?"

No Better Winter Breakfast than

SHREDDED WHEAT

Warms - high in calories and carbohydrates
Healthful - easy to digest, a safe regulator
Delicious - heat in oven, serve with hot milk

Made by The Canadian Shredded Wheat Company, Ltd.

Western Canada in the Spotlight

The attention of people in all parts of Canada, and, in fact, of the world, will be directed to the prairie provinces of this Dominion during the next few months in a way and to an extent probably unprecedented in the history of any country, by reason of the applications to the Dominion Parliament for charters to build many hundreds of miles of railway in the northern portions of Manitoba, Saskatchewan and Alberta.

Both the Canadian Pacific and the Canadian National Railways are asking Parliament for power to enormously extend their lines into the north country, and both announce their eagerness to proceed with the work of construction with the least possible delay. There is the keenest kind of rivalry between these two giant systems for rights into certain sections of this territory, with the result that a battle royal will take place at Ottawa when Parliament assembles.

One thing emerges quite clearly from the situation that has developed with almost startling suddenness, and that is, that, despite all former statements and predictions to the contrary, the railway managements of Canada are now convinced of the enormous wealth of natural resources in the more northerly portions of Canada and of the success of the Hudson Bay Railway and Hudson Bay route to the markets of the old world.

There had long been a suspicion in the minds of many Western people that the former opposition in Montreal and other Eastern centres to the construction of the Hudson Bay Railway was based, not on their professed scepticism as to the feasibility of the route, but because of their belief that the route would prove to be an unqualified success, with all the upheaval which the opening of this short route from the heart of the prairies to the markets of the world would cause in existing transportation conditions, rates, and routing of traffic.

Examination of the plans of the railways, as thus far outlined, indicate a reversal of formerly held views that the people of Western Canada should be served by lines running east and west, with all the tremendous production of the prairies moving out either to the Atlantic or the Pacific seaboard, and all our imported products coming in through the same ports. Now, both of the great railway companies appear to be determined to connect up their east and west lines by short branches here and there and the construction of great north and south main lines, all stretching hundreds of miles north of existing settlement and heading towards tidewater in the north. A veritable railway revolution is in prospect.

This declaration of absolute confidence in the northern half of these prairie provinces, and in the Hudson Bay outlet, evidenced by the willingness of the biggest financial men in Canada interested in the C.P.R. to expend tens of millions of dollars in northern extensions, will attract the attention of the whole world and will constitute the greatest publicity this section of the Dominion has ever received.

Regardless of the decisions reached by Parliament as to division of the northern territory between the rival systems, and the respective zones to be allotted to each, the result will be to roll back the map of Canada hundreds of miles. The old reproach and weakness of Canada that it consisted of a narrow strip of more or less settled territory extending thousands of miles from the Atlantic to the Pacific along the Canada-United States boundary line, is to be removed. To the Dominion will be given great depth as well as great width, and what for centuries has been looked upon as barren wastes of extensive territory, but of no value, will become a storehouse of treasure, the development of which will add enormously to the population and wealth of the Dominion, providing new avenues of employment, and diversified employment at that, for the people of Canada.

Service De Luxe

One Man in Washington Has Private Traffic Cop

A traffic cop who serves one man is stationed in Washington. On a driveway leading to the office of the Secretary of Agriculture there is a crossing. It is in what is known as the Mall, the parkway extending from the Capitol to the Lincoln Memorial. Every morning about 8.30 the guardian of the crossing appears, turns four signs reading "No left turns" and waits until the automobile of Secretary J. H. Clegg comes along. Then up goes the copper's hand, and traffic stops to let the Secretary pass. As soon as he has gone by, the signs are reversed, and the policeman departs. About 4.20 in the afternoon the policeman shows up again and repeats the performance as the Secretary passes on his homeward way.

A python 25 feet long, a giraffe 20 feet tall, an elephant weighing four tons and an insect measuring 12 inches are among the "records" of the London zoo.

The volume of general business in 1928 measured in physical units was about 13 per cent greater than in 1927.

Times change, and now the patient who provides spending money and doesn't interfere is called a good scout instead of a fool.

Holds Record For Accidents

Minneapolis Salesman Has Ninety-Eight to His Credit

E. P. Lindgren, the world's champion accident victim, added another to his long list of mishaps when he slipped on an icy pavement and injured his back.

The Minneapolis salesman, who is credited by a railroad trade magazine with participation in more railroad wrecks than any other person in the world, thus brought his list of accidents to 98, but failed to add to his 54 bone fractures.

Lindgren, unlike other champions, began his unusual career in infancy. When he was 11 months old he fell out of a cradle rocked by his grandfather and fractured his arm. Since then he has figured in almost every conceivable accident.

The Friend Of All Sufferers

Dr. Thomas' Electric Oil is a valuable remedy to all those who suffer pain. It holds out hope to everyone and realizes it by stilling suffering everywhere. It is a liniment that has the blessing of half a continent. It is on sale everywhere and can be found wherever enquired for.

Air Accidents In Canada

Ottawa.—Seventeen persons were killed in flying accidents in Canada during 1928. It was made known by the department of national defence. Fourteen persons were killed in commercial flying and the others in flying club machines. Serious injuries were sustained by sixteen persons.

Simple Precautions Against FLU

Sore Throat — The Danger Signal

Health Authorities Point Out The Necessity Of Treating The Simple Cold At Its Beginning

Nearly every case of "Flu" starts with a simple cold. At first the throat is sore—often just a little hoarse—soon the infection goes lower—then the chest is affected. A safe plan is to gargle the throat three times daily with "Nerviline"—this will keep the throat free from germs. If there is any sign of tightness in the chest, rub on Nerviline—every drop will penetrate deeply—congestion will be relieved—the cold will break up quickly. Many a dangerous case of "Flu" can be avoided by this simple home treatment.

Of course it is always wise to take some relaxing medicine, and for this purpose immediate results will be secured from Dr. Hamilton's Pills—they purge the system of impurities and carry off a lot of disease-breeding wastes.

This combination treatment of Nerviline and Dr. Hamilton's Pills is very effective for Grippe, Influenza, Bad Colds, etc., and can be relied upon to give very satisfactory results.

Speakers At Dinner Of Canadian Society

U.S. and Canadian Senators Guests At Function In New York

The Canadian Society of New York helped to strengthen the North American entente cordiale by bringing together as their guests at their annual dinner two senators, one from the Canadian Upper Chamber, Hon. C. P. Beaubien, K.C., and the other from the United States House, Hon. Simeon D. Fess, of Ohio. The speakers dealt with the aspirations of the two countries.

Senator Fess frankly discussed the two chief issues now agitating the Congress, the Kellogg treaty and the new cruiser program, and he readily supported both. The United States, he declared, should not put any obstacle in the way of the effort to banish war.

Senator Beaubien reviewed the development of Canada in recent years and painted a glowing picture of the Dominion's future.

"Canada, with a vision quickening and widening, has remained sober-minded, fairly traditional, and, I think I can add, hardworking and still law-abiding and God-fearing," he said.

A STOMACH RESTORER

Good Advice From One Who Had Suffered Much

Discomfort after eating, gas pains in the intestinal tract, pains around the heart, sour risings in the throat called heartburn, are common symptoms of dyspepsia. It is a condition often neglected until it has done permanent harm, yet the treatment is simple. The great contributing cause to this trouble is thin blood. Good blood and plenty of it is required by the stomach to function properly. If the blood is thin the stomach becomes sluggish, food lies undigested, gas forms causing pains, often around the heart. Instead of getting nourishment from the blood the system gets poison. The proper treatment is to enrich the blood, and there is no other medicine can do this as promptly or as effectively as Dr. Williams' Pink Pills. The sole mission of these pills is to make new, rich, red blood, which reaches every organ and nerve in the body, and thus not only banishes indigestion and dyspepsia, but also all other troubles having their origin in weak, watery blood.

The splendid results following the use of Dr. Williams' Pink Pills is shown by the case of Mrs. Lucy A. Cushing, a former resident of Kempt, N.S., but now living with her son at West Bethel, Me. Mrs. Cushing says:—"I have no hesitation in strongly recommending Dr. Williams' Pink Pills. For years I was a great sufferer from indigestion. I was after eating I suffered from pains in my stomach and other distressing symptoms that accompany this ailment. I tried different doctors while residing at my old home and also at West Bethel, but without getting relief. I was advised by a friend to try Dr. Williams' Pink Pills. I did so and I must say that I am feeling very grateful ever since to the good friend who gave me the advice. I soon found the pills helping me and by the time I had taken nine or ten boxes I was completely restored to good health. Though I am now in my 76th year I am feeling as well and smart as I did at 35, and am enjoying life once more. You can get these pills through any dealer in medicine, or by mail at 50 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

Shows Canada's Loyalty

London Paper Expresses Appreciation Of Reverse To Penny Postage

The London Sunday Times in an editorial headed "Canada leads the way," welcomed the increased British immigrant quota as emphasizing the practical loyalty of Canadians to their British stock, but fears that the proper advantage may not be taken of it in Great Britain. The newspaper quotes further encouragement both of propaganda and finance. The Sunday Times also expresses appreciation of the penny postage and finds in it "a signal proof of Canada's strong imperial sentiments."

After urging Hon. Winston Churchill, chancellor of the exchequer, to follow Canada's example the Sunday Times advocates a common empire stamp which, it states would have a real psychological value as a symbol of imperial unity.

Alberta's Peer's Estate

Estate Of Earl Of Egmont Estimated To Approximate One Million Dollars In Value

That the estate to which the Earl of Egmont, of Priddis, Alta., has fallen heir, will approximate one million dollars is an estimate made at Calgary with his assistance.

The bulk of the estate comprises Avon Castle, the family seat at Ringwood, Hants, and 1,309 acres surrounding it.

Some \$40,000 has been spent lately in improving the land and the residence, declared the new earl.

In addition, he says, there are investments in stocks and shares and in war bonds amounting to a large total.

An Old Observatory

A prehistoric observatory has been unearthed at Buetzow, Mecklenburg. It is estimated that the construction of the observatory commenced around 1181 B.C. It is in the form of a circle of stones, which served for the observation of the annual circuit of the sun and also as a calendar.

The latest wonder of agriculture, is a cabbage plant which produced six heads of cabbage in turn, one above the other.

Heart Trouble Hands and Feet Numb and Cold

Mrs. Wm. Fowler, Auburn, Ont., writes:—"Several years ago I was troubled with my heart and nerves, so bad, at times, my hands would become numb and cold. I took doctor's medicine for a while, but it did me little or no good. I happened to see

"When you grow up you shall be a gentleman."

"I don't want to be a gentleman. I want to be like you, daddy."

Jugend, Munich.

Testing Factors in North

Success of Experiment Will Have Far-Reaching Effect on Methods of Transportation

An experiment by the Hudson's Bay Company with tractors, which, if successful, may have a far-reaching effect on the methods of transporting supplies in the northwestern Arctic, is being tried out this winter, according to Bishop Anderson, who has returned from a trip to the north.

A number of tractors were shipped to Wager Inlet, north of Chesterfield Inlet, he said, and the intention was to use them in hauling supplies across the barren lands to Port Cockburn, 150 miles away. The posts in the territory beyond Port Cockburn at present receive their supplies by ship from Vancouver through the Behring Straits. They may in future be served from Montreal, if the experiment proves satisfactory. The result of the experiment will not be known for some time.

Must Keep Drama Clean

Bransby Williams, English Actor, Deplores Modern Tendency

"I am ashamed of the way in which the stage is being run in the United States, Canada and Great Britain," Bransby Williams, English actor, said in addressing the Brockville Rotary club, adding that, for the sake of the rising generations, the stage has got to be kept clean and the pictures "must be kept cleaner."

In moving-picture theatres, he said, boys and girls are today reading titles that are despoiling the English language, and on the stage itself there appears to be no longer room for good, clean, beautiful plays, while the bookstores are full of questionable reading matter.

Cutting Corns With Razor Leads To Lock-Jaw

Don't cut corns with an old razor blade. Infection, followed often by death may result from paring corns with an infected razor. Quick, safe relief comes from using PUTNAM'S CORN EXTRACTOR. If afflicted with corns, callouses or sore foot-lumps, use "PUTNAM'S"—it's reliable, and sure to shrivel up the corns so they drop right off. No pain, no soreness, but quick relief from sore corns comes to all who use PUTNAM'S PAINLESS CORN EXTRACTOR. 25c. at all dealers.

In His Line of Duty

Traffic Officer Explained His Reprimand to Woman Driver

Spectators stood aghast on the sidewalks and in the streets. They could hardly believe their eyes. A traffic officer actually was bawling out a pretty woman driver.

"You careless she devil," they heard him say, "who do you think you are? Just because you're a woman you think you can get by with anything, eh? Well, your little smiles won't get you nowhere with me. They may have once, but never again. Now back up there! Snap into it! And listen, sister: The next time you don't see that stop sign I'll throw you in the can."

A wizened little man with a much-married look, who had found the scene entirely to his liking, rushed over to the officer and extended his hand.

"Officer," he said, "I want to congratulate you. That is the first time I ever saw a traffic cop bawl out a woman driver. I did more than enjoy it; I envied you your place. You see, officer, around home I'm considerably henpecked."

"Sh-h-h," said the officer, "so am I. That was my wife."

Industrial Manitoba

Agriculture Has Now To Take Second Place To Manufacturing In Western Province

Agriculture now has to take second place to industrial manufacturing in Manitoba, according to figures of the Industrial Development Board. An estimate made by the Board places the output of manufactured goods in Manitoba this year at \$159,252,000, as compared with \$132,000,000 during 1927. The agricultural wealth produced in 1927 was placed at \$147,000,000.

Utilizing Coal Resources

The new Fuel Research Laboratories of the Department of Mines at Ottawa, were designed and the equipment selected with a view to carrying out investigations which would be in the interest of the development of the coal resources of the Dominion.

A fund opened by a Toronto newspaper for relief of the unemployed of Great Britain reached a total of \$28,094. The money was sent to swell the Lord Mayor's fund being raised throughout Britain.

She—"Alfred, I know I have my faults."

He—"Yes, dear."

She (frigidly)—"Then perhaps you'll tell me what they are."

An acquaintance says the most undesirable place in the world to live is beyond one's income.

UPPER SUMAS

Sumas Prairie Assembly will hold their fourth annual dance in the Gaisley Hall on Friday, March 15.

Regular monthly meeting of Upper Sumas W.I. was held on Feb. 7 at the home of Mrs. W. H. Fadden, with Mrs. L. O. Lamson presiding. Prevalence of flu and the wintry weather combined to prevent going on with the basketry class until after the March meeting. Further suggestions for 1929 program were received and the secretary hopes to have a completed program ready for March. A Valentine sewing contest, stitching a valentine design in red thread, provided a merry feature, Mrs. B. Stewart being voted winner.

A resolution from the Department of Agriculture re "Full Time Health Units" was posted for a month's consideration. This pertains to the establishment of health units in rural districts tending to control communicable diseases, maternal and infant mortality in childbirth, as well as medical inspection of school children.

According to a report from Sumas Hungarian colony, a score of letters have been received from inhabitants of Transylvania, beseeching the Hungarian leaders here to assist them gain admission into Canada.

Mr. and Mrs. C. A. Watson visited Duncan last week, where their son Jim is convalescing from an appendicitis operation.

A number of Sumas Prairie farmers attended the banquet given by Woods Bros. Threshing Company at the Lions Club, Sumas on Saturday evening.

Mr. Zurowski is being visited by his brother from Saskatchewan, who expects to buy land here and bring his family here in the near future.

Mrs. A. Gordon of Seattle, who has been visiting her daughter Mrs. Geo. Fadden since Christmas, left for her home on Tuesday.

Mrs. W. H. Fadden accepted the invitation of the Local Council of Women of New Westminster to a reception at the Y.W.C.A., spending the week-end in the city.

Chilliwack Board of Trade has been definitely advised by W. G. Murrin of the B. C. E. R. Co. that a reduction in the number of trains on the Fraser Valley line is impending.

MRS. KERR VICTIM OF PNEUMONIA

The Clayburn community is distressed this week over the death of Mrs. James Kerr, who passed away on Monday, a victim of pneumonia. Deceased had been nursing her son-in-law and daughter, Mr. and Mrs. Golos at Kilgard, when she contracted the flu. She returned to her home on Monday, and died that day.

Mrs. Kerr's sad demise severs another link with the past. Born in Kilmar-nock, Scotland, 49 years ago, she came to Clayburn in 1909, three years later than her husband. Surviving are her husband, three sons, Tom, Alex, and George at home, and two daughters, Mrs. M. Golos, Kilgard, and Mrs. Mutton, Los Angeles. Other relatives are her mother, three brothers and four sisters in Scotland, and one brother in Vancouver.

The late Mrs. Kerr was a woman of kindly, hospitable nature, holding the respect and regard of all who knew her. The funeral was very largely attended, and conducted today from Clayburn United Church to St. Nicholas cemetery. An abundance of beautiful wreaths was mute testimony of the esteem in which she was held.

Mr. Ball was called to Victoria this week to inspect samples and specifications of the bricks required for the new wing of the Empress Hotel, which the Clayburn company will supply if the material can be manufactured here. An order for one million brick is entailed.

Sunday visitors at the home of Mr. and Mrs. J. Gilmour were Mr. and Mrs. J. Robins of Edmonton, Alta., and Mr. and Mrs. T. Curwen of Chilliwack. H. Gilpin is in the M.S.A. Hospital with an infected hand.

Inferior meat is surely not worth cooking—and is certainly unwholesome, detrimental to health. Carmichael appreciates this, and carefully selects his stock so that you not only get choice cuts—but fresh, tasty, wholesome meats at fair market prices.

Mrs. A. Hougén gave a pleasant tea on Friday afternoon, those present being Mesdames E. Carlson, M. Hougén, J. Igeland, G. Kerr, W. Peterson, J. H. Wood, Misses E. Carlson, Freda Igeland and Audrey Kerr. A happy social hour was spent.

Mr. and Mrs. H. Rothuff and daughter Charlotte left for California last week to visit friends and relatives.

Mr. and Mrs. Gran (Mrs. Hurum's brother) are visiting at the home of Mr. and Mrs. Hurum. Mr. and Mrs. Gran are here from a motor trip in the southern states.

A number of parents in Gifford district are incensed over the sending of pupils from one room of Glenmore school to Matsqui, and the action of the School Board in giving notice to Miss Bates, when she declined to take a class at Dunach's school. A meeting was held by the ratepayers on Monday with R. C. Sibbald in the chair, and a resolution passed embodying a protest, to be brought up at the next meeting of the School trustees.

Mr. Otto Augustine, who has been ill for several months, was pleasantly surprised by friends on Saturday evening. He was presented with a valuable gift.

Miss H. Kemprud is in Vancouver taking electrical treatments for her health.

Mr. Timothy, former school principal here is taking up residence in Hatzic, where he has rented Mr. Hickling's house for a year.

Christopher Kraft, Matsqui, was sentenced to 30 days in Okalla for intoxication by Magistrate Bell in police court last week.

Church Workers Tendered Complimentary Farewell At Clayburn

A farewell surprise party was given on Monday night at the home of Mr. and Mrs. Brooks, who are leaving this week to reside in Langley. Addresses were read from the Session, the Ladies' Aid and the Sunday School. Mr. Brooks has been superintendent of Clayburn Sunday School since 1911, and Mrs. Brooks has taught Bible classes for a number of years.

During the evening, the guests-of-honor were presented with an upholstered armchair and a bridge lamp. About 30 people were present.

CLAYBURN

Dr. Porte of Clayburn, as a precaution in view of the influenza epidemic, has ordered all school children suffering from coughs, cold and similar ailments to remain away from their class until they have recovered.

Miss Margaret Pooks is visiting with friends in Vancouver.

Mrs. Fox, who has been in bed with an affection of the throat, is somewhat better.

Mrs. L. Salmon of Vancouver has been visiting her parents here.

A surprise party was given Miss L. Gibson on Friday evening by a number of friends, the evening being enjoyed at games and dancing. Mr. and Mrs. Gibson and Miss Lucy Gibson left on Saturday to reside in South Vancouver.
